CALL FOR PAPERS

THE 10TH ANNIVERSARY CONFERENCE OF THE HUNGARIAN LANGUAGE TEACHER TRAINING FACULTY IN SUBOTICA

Time: 25-26 November, 2016

Place: Assembly Hall of the Town Hall of Subotica, Trg Slobode 1 and Hungarian Language Teacher Training Faculty in Subotica, Strossmayer street 11

University of Novi Sad Hungarian Language Teacher Training Faculty in Subotica celebrates its 10th anniversary this year. During the past decade, the Faculty has been at the forefront of ensuring quality education as well as continuously challenged the didactic-methodological theories of education. Thus, three series of international scientific conferences have been organized, to be specific the international interdisciplinary scientific conference (organized for the 10th time this year), the international scientific methodological conference (organized for the 5th time), and the international scientific conference of ICT in education (organized for the 3rd time). Also due to the above mentioned conferences as well as in addition to several publications, the Hungarian Language Teacher Training Faculty in Subotica achieved to yearly publish two scientific journals, namely the *Annual* that also celebrates its 10th anniversary, is published following the first scientific conference of the faculty and the *Methodological Bulletin* that celebrated its 5th anniversary last year and is published following the second conference of the faculty.

This year, it is our purpose to organize a unique 10th anniversary conference that aims to explore the following topic in depth:

“CHANGING KNOWLEDGE PLACES OF SCHOOLS”

Three sections will be organized that provide the opportunity for the discussion of the above stated topic, to be specific there will be a general interdisciplinary approach of the issue, a methodological one, and the perspective of ICT in education.

The conference is organized upon invitation, so lecturers and researchers who showed outstanding commitment in their presentations towards a particular scientific topic or our faculty are kindly invited to participate in this conference.

We wish to all our participants a successful conference and a purposeful contribution to the changing knowledge spaces of schools.
